Subject: EXTERNAL: Dallas Regional Science and Engineering Fair- further information
Date: Monday, January 18, 2021 1:47:58 PM

Dear colleagues:

If you are interested in joining our team of DFW AHMP Special Award Judges for this year's DRSEF, please read the following information.

- Go to this URL for important information for Special Award Judges:
<https://www.smu.edu/Lyle/Centers-and-Institutes/Caruth/Youth-Programs-and-Camps/Dallas-Regional-Science-and-Engineering-Fair/Judges>
- Go to this URL and submit your application:
https://smulyleschool.formstack.com/forms/drsef_special_award_judge_registration
- Read the letter to Special Award Judges at this URL: https://www.smu.edu/-/media/Site/_Lyle/Centers-Institutes/CaruthInstitute/DRSEF/Judge_Letter_2021.pdf?la=en
- The deadline to enroll is February 8th.
- You will receive an email that contains a document with all of the abstracts that the student participants have submitted describing their projects.
- We will review the abstracts and choose two or three that best demonstrate responsible handling of, or treatment of hazardous materials.
- We will choose two, or at the most three project presenters to interview, based on their abstracts.
- On February 19th at 4:00 p.m., Kristine Reily will arrange a Zoom meeting at which all DFW AHMP Special Award Judges will be present.
- Kristine will introduce our chosen students into the Zoom meeting, one at a time, for us to interview.
- The length of each interview is negotiable, but must be short enough to allow us time to do each one and to confer with each other, after the interview, to choose our winner.
- Kristine's goal is to be finished no later than 6:00 p.m.

Please join us.

Regards,

Mike Whitehead, MA, COHC, CHMM, EMP, CSP
